Part 1

Create an html file called party_invitation_form.html and build a form which has the same elements as the file "Party Invite.pdf" attached to the dropbox. I am not looking for styling here. I am just looking for html elements. You can easily enhance the appearance of this form by using Bootstrap but that is optional. [18 Marks]

Part 2

For this part, you will be modifying your "Fan" website by adding CSS to control the formatting.

Please note that the goal of this assignment is not to have a "Professional Looking" website. Rather it is to try out CSS selectors and CSS styles.

1. Add an external style sheet to your website (2 marks)
2. Provide 1 example of an embedded style (2 marks)
3. Provide one example of an inline style(1 mark)
4. Apply styles to your website which use (4 marks)
    a. Element selectors
    b. Class selectors
    c. Id selectors
    d. Descendant selector
5. For one of the text elements on your website, use CSS to adjust the following font property: (5 marks)
    a. Family
    b. Weight
    c. Style
    d. Size
    e. Color
6. For one of your html elements, use CSS to adjust the Box Model properties: (5 marks)
    a. Margin
    b. Padding
    c. Border (size and style)
7. For one of your html elements, use CSS to adjust the background color (2 marks)
8. For one of your html elements, use CSS to adjust the background image (2 marks)
9. Choose 4 other CSS properties and apply them to your website (4 marks)
10. Place your website under git version control and upload to GitHub. (5 marks)
